RONNIE THE SUPER RAT!

When you're bugged by bugs you call an exterminator. But what do you do when Ronnie the Super Rat (a has-been lab rat mutated by research experiments) decides to do some of his own experiments in pest control,

From his headquarters based on the dark side of the Moon, Ronnie is radiating the Earth with his powerful PEST BEAM. The PEST BEAM is making the bugs of the Earth go buggy. When roaches and rodents run rampant there is only one man for the job. World leaders cried out for Kernel Kleanup, the Western Exterminator.

## III. GAME PLAY (Continued)

As Kernel Cleanup, you will start off with 5 lives and 5 energy hearts. Whenever you are bitten by pests you lose one heart, and when you lose all 5 hearts you lose one Kernel Cleanup. Extra hearts are hidden in different places in the game. With your trusty hammer it's your job to bash all the bugs on the level. When all the bugs are killed you will advance to the next level. On the 8th level you will reach the moon and there you will face the powerful and intelligent Ronnie the Super Rat.
